FIVESTAR NETWORK

July 10th, 2020

To whom it may concern:

I am the founder and president of FiveStar Network, an online marketing and distribution company located in Victoria, Australia. I have been involved with Primeco Education and receiving Executive Coaching from Mr. Behnam Bakhshandeh since June of 2018 on my business operations, as well as on many aspects of my life in general.

I cannot emphasize enough how helpful Behnam's coaching program has been. The coaching program and its modules helped me get rid of my negative inner thoughts and to free myself from the fears and barriers that I had created for myself. I have learned to believe in myself and my abilities while taking actions toward my vision of building an empowering future versus fixing my past mistakes. Since I started the executive coaching program with Behnam, I have lived significantly happier, healthier, and achieved a much better sense of direction for both my personal and business life.

My personal life has improved drastically, and my business has grown to new levels of production and expansion. I have managed to unlock new opportunities where not only my profits are increasing, but my lifestyle is also significantly improving too.

I highly recommend Primeco Education and Behnam Bakhshandeh to anyone interested in increasing their personal and professional capacities for a better and more productive life and business.

Best Regards,

Pejman Pakzamir
