

To Whom It May Concern:

Primeco Education and Behnam Bakhshandeh delivered on their promise.

They helped us to create a vision for our company and practices that would make that vision reality. The impact of creating the vision inspired our team to become a family and produce results as a team vs. hard-working individuals.

Our vision is getting fulfilled every day and out of that, we are producing higher results. Working at MEME Enterprises LLC, is a pleasure and people are moved by the company vision and the visions they have created for themselves!!!

Sincerely;

Alan Mellor
